

SUMMARY

Postgraduate Computer Science student with a solid foundation in programming, databases, and web development. Familiar with Python and AI/ML fundamentals, with a growing interest in automation technologies. Eager to apply technical knowledge, problem-solving, and analytical thinking to real-world automation projects.

EDUCATION

Master of Computer Science

K K wagh ACS & CS College Saraswati Nagar,
Nashik | 2024-2026

Bachelor of Computer Science

K K Wagh Arts, Commerce and Science College,
Pimplegaon Baswant | 2021 -2024
CGPA : 8.51

TECHNICAL SKILLS

- **Programming:** Core Java, Python, C, SQL
- **Automation & AI Knowledge:** Understanding of AI/ML theory; currently learning Power Automate and UiPath
- **Web Technologies:** HTML, CSS, Bootstrap, PHP, JavaScript
- **Databases:** MySQL, PostgreSQL
- **Tools:** Git, GitHub, VS Code, Eclipse
- **Operating Systems:** Windows, Linux

LANGUAGES

- English – Proficient
- Hindi – Fluent
- Marathi – Native

INTERNSHIP

YSM Info Solutions Nashik

April 2025 - May 2025

- Assisted in full-stack software module development and testing using PHP, JavaScript, HTML, CSS, Bootstrap, and MySQL, applying OOP and database concepts in a professional setting.
- Contributed to project phases, including data collection and requirement analysis, enhancing problem-solving and teamwork skills.

PROJECTS

File Organizer Automation Script:

Developed a Python automation script to organize files in folders based on their type (e.g., images, PDFs, documents). Automated repetitive file-sorting tasks using OS and file-handling modules, improving organization and saving time.

Clinic Management System:

Designed and implemented a Clinic Management System using PHP, JavaScript, Bootstrap, and MySQL to automate patient record handling, appointments, and billing operations. Focused on database management and user interface efficiency.

CERTIFICATES

- Fundamentals of Full Stack Development
- Business Analytics using Power BI and Tableau
